05/10/12

MAY 4, 2012 WAS THE WEB SITE'S SEVENTH ANNIVERSARY

“Thanks for taking the time for making such a valuable interpretation of William Hyde McMullen's military career. I realize that he would be 103 this June.” (http://dmairfield.org/people/mcmullen_wh/)

04/30/12

“I have to say that after doing internet research on aviation history, your site provided unusually detailed information (not just the same old regurgitated info) that is very interesting to anyone digging into the subject.... Keep up the good work!”

04/07/12

“I've been studying your recently added William H. McMullen photo collection. Great stuff! I bet they don't have a better collection of photos covering early aircraft carrier operations in the National Archives or Naval Aviation Museum.” (RE: <http://www.dmairfield.org/Collections/McMullen%20Collection/index.html>)

04/02/12

“I want to say I really admire the work being done on the Davis-Monthan website, it is a treasure.”

03/29/12

“What an unbelievable job! There are so many stories spun by the pictures with a young ensign who is consumed by Naval Aviation. I can't believe how well you interpreted all the landing pictures with carrier deck operations....Thanks for everything.”

(RE: <http://www.dmairfield.org/Collections/McMullen%20Collection/index.html>)

03/25/12

“The McMullen album was an awesome undertaking on your part! Congratulations on a job well done!”

03/22/12

“My sister and I were blown away when we found the information on West Moreau---great work, and thanks to the Moreau family!” (www.dmairfield.org/people/moreau_we/)

02/23/12

“Continue to preserve this historical record - it is great to read.”

02/16/12

“That's one of the things that's so interesting about the pioneering days of aviation -- what it cost us to reach where we are today. The D-M site is a perfect microcosm of that magnificent struggle. Kudos to you for putting it out there for those who might be interested in discerning the human cost of taking the technology to where it is today.”

01/21/12

“Came across your GREAT site with the many outstanding photos!! “

01/16/12

“Nice job on the web site.”

01/07/12

“I am getting a lot of info from your site and marvel at your work. Thank you again.”

01/03/12

“We [family members] have talked, and will be meeting in Wichita very soon. Thanks for helping reunite our family members.”

12/19/11

“I was surprised to learn the history of this rare aircraft and even more surprised to find a nearly identical photo on the internet. It was a fun discovery for me. So add me to the long list of people who appreciate your efforts.”

12/16/11

“I really like how you have put things together ... if it wasn't for you doing this, all this information would die with me and these things thrown in the trash.”

12/16/11

“I can't put into words how lovely it was, to open my email and find this lost piece of aviation history.... I have forwarded it to the rest of the family and I appreciate so much that you remembered us.”

12/15/11

“Your historical research and documents are invaluable for learning from the past to bridge into the future.... Thank you. Keep up the research!”

12/09/11

(http://www.dmairfield.com/people/carr_wj/)

“I came across your site today, fascinating since my Grandfather flew into this airport on 8/28/1930. I have his log book entry for that day and sure enough there it is. ... If you would like a copy of the log book page let me know I would be happy to send it to you. Once again, thanks for doing this. It's so hard to find information like this.” (http://www.dmairfield.com/people/henderson_rw/)

10/06/11

“Thank you very much for the bio that you did on Don Smith (http://www.dmairfield.com/people/smith_df/). I know it was a lot of work and you did a real good job. I made a copy and I am placing it in his book for his grandchildren.”

10/04/11

“I check into the site regularly, and continue to be impressed with your thorough research. Along with that, how well you've presented the site so that family and friends and collectors of your Register pilots are encouraged to contribute.”

10/02/11

“I love your site and I will do my best to get some photos to you. I just recommended your site to the Tri-motor group. Some of the members should have some photos, stories and information for you.”

09/28/11

“I enjoyed browsing through your site. Very interesting. Thank you for taking the time to make all that information freely available.”

08/31/11

“Your lead about the White Castles made me LOL. (Think that's a first on the D-M site....) From this moment forward I will refer to all gut bombs as "sliders." Thanks, Earl, for a truly memorable addition to the American lexicon!” (http://www.dmairfield.com/people/rowland_ea/)

08/30/11

07/26/11

“You got me hooked looking at the page updates when I should be sleeping. ;-)”

07/10/2011

“Funny how in that time and place, even in seemingly unrelated stories, there just aren't that many degrees of separation from D-M.”

07/09/11

“I really appreciate what you have done with all these random photos and docs from a thousand different sources, tying them all together through the common thread of DM.”

07/05/11

“I have been very much enjoying your site and all the information it contains. Very impressive!”

05/15/11

MAY 4, 2011 WAS THE WEB SITE'S SIXTH ANNIVERSARY

“Your Aviation Field Register site is just unique American history. What a great thing you are doing from one primary source of material. Clearly, you were inspired. ... This site should be promoted in schools, scouting and anywhere where developing young citizens can be reminded of the role of flying in the growth of 20th Century America. ... Much appreciation for your attention, and congratulations on your fine 'work in progress!'”

05/01/11

“I'm going to poke around your website a bit more just because it is extraordinarily rich in flying history. Nice job.”

04/05/11

“I just happened on this website by chance, and saw my grandfather's name listed, and got very excited.... Thanks for giving me a great thrill by seeing his name here.”

03/30/11

“What a treasure...you're website! ... So much for getting taxes done...got lost at D.M. Wow, awesome, is all I can say. Best of all I saw a book and could not resist...'The Congress of Ghosts' (<http://www.cafepress.com/oldairfield.481173770>).... Amazing how you've expanded your mammoth material.”

03/28/11

“I think the D-M site is a good textbook of what the best of the country had to offer. I think it's a great window for the world to see what the better angels of our nature were/are like.”

03/21/11

“I am really too busy for this ..., but like ice cream sitting in front of me, I can't resist.”

(www.dmairfield.org/people/sodowsky_jb/index.html)

02/25/11

“Just finished reading the Doolittle bio and I must say that it is tastefully done. Your fresh outlook on the already well documented exploits of this exceptional aviator should interest both the seasoned historian and the uninformed reader alike. I will go on to say that the work in which you have put into this effort is complimentary to the Davis-Monthan Register as a whole and was long overdue. I am glad that he was not left out. Great Job!”

02/22/11

“Since I have been exploring the D-M website, I find more interesting info and facts than I would if I accessed a dozen like sites, so keep up the good work. I am sure that others beside myself have and will become enriched by your work.”

02/19/11

“Once more, I want to say that I am amazed and gratified by the labor, taste and curiosity you have poured into your site. it is astonishing as a one-man operation ..., only approached by the Aerofiles of the late K.O. Eckland (www.aerofiles.com) and perhaps by Paul Freeman's little-known and abandoned airports site (http://www.members.tripod.com/airfields_freeman/). What a resource for future generations!”

02/16/11

“I look forward to the next installments on your site. You do great work!”

02/16/11

“I have shown my 13 year-old daughter your website, and she finds it ‘Amazing’. As the subject of ‘Early Aviation’ is rarely taught in our public school system, she had no idea that these personalities ever existed. She wants to ask her teacher if she can refer to your site as a new addition to the class curriculum.”

02/06/11

“Spent most of the day browsing your "Images" section and I really enjoyed the visit. Seems like your website is a never ending "work - in - progress.”

02/03/11

10/10/10

“I don't remember HOW I found your website but you have maybe the best on web for aviation! I was floored how you had one link after another to go to related subjects. Always something new.”

10/10/10

“I'm actually writing because you have a nice write-up on the Belmont/Glenmont airplane [NC5278]. It was made at Cal Poly which had an airfield that isn't well documented (yet). As I dig into my research, I wanted to say thanks for posting that and for the amazing job you have done with the site.”

“I received a wealth of information from the contacts you gave me. It is amazing the knowledge that some people have about historic aircraft.”

08/03/10

“You won't believe the world wind [sic] adventure I have had trying to find out information about Phoebe and Vernon Omile [http://www.dairfield.com/people/omlie_pf/]. However, the road comes to a trumpet end.”

07/28/10

“Great job on your web site; I was very impressed when I saw it a long while ago. And the Grand Central page is new to me so I need to go back and re-read it; it looks very well done and I'm sure I'll learn something from it. I think it is extremely important to document this great history now while we can because the powers that be are very busy erasing the few sites and landmarks that are left. We have lost most who made that history and many of those who knew those people. If it's not documented now we run the risk of inaccurate stories replacing actual history.”

07/16/10

“I loved your website and think you did a marvelous job! Thanks so much!”

07/14/10

“Great site you have.”

07/10/10

“I enjoyed touring your site! Some wonderful history there, thoughtfully preserved and presented.”

05/28/10

“I wanted to thank you for putting so much time and effort into this website. Especially the by-name list with photos of the pilots' entries into the log. I have always been fascinated by my great-great uncle's (Oakley G. Kelly) accomplishment [http://www.dmairfield.com/people/kelly_og], and have visited his plane several times in the Smithsonian. By chance this evening I stumbled across your website, and found his two entries into the Register. Not to mention the first picture I have ever seen of him on the NY *Herald-Tribune* for Friday May 4, 1923. Again thank you for this brief glimpse into my past.”

MAY 4, 2009 WAS THE WEB SITE'S FOURTH ANNIVERSARY

“I appreciate all your work plus making me a Celebrity among our family ‘Hey Guys...Dad is on the Internet!’ How about that?”

04/22/09

“Your site has always read well--kind of like Richard Bach's ‘Stranger to the Ground’--the interplay between the pilots and the machines is there--not just the technology and terminology.”

04/18/09

“You have done such a terrific job on the site ... and the whole web site for DM.”

04/16/09

“The Web page is very impressive! Thank you for your interest in my father and your excellent tribute to his memory! ... I'll enjoy sharing your work with my children and grand children. Thank you!

04/11/09

“It's nice to meet someone who is so dedicated to preserving this great history.”

03/16/09

“I was researching my great grandfather and found your website, which I think is amazing.... Great job on the creation and documentation of your website.”

03/12/09

“Thought you'd like to know that my 11-year-old granddaughter in SC read every word of her great-great-grandfather's page and announced that she was really impressed with his life! Then, she came out with the thing that most impressed her: Orville Wright's signature on the FAI cards. And I didn't even do any prompting on that one. You've got a hit on your hands.”

03/08/09

“You are doing such a phenomenal job and we all appreciate it so much.”

03/04/09

“You have a neat site there. Great stuff!”

10/05/08

“One of the joys in my life at this stage is my computer and Web sites like yours.”

09/19/08

“I am so gratified to have found this Web site! Thank you for your snippet about my favorite uncle....”

08/04/08

“It is a pleasure to view and refresh my memories of stories I have heard from John M. Miller. He is honored here by your efforts. John will be missed greatly. He was an inspiration for me and many others. I realized through him how you could live several lives in sequence. So many people allow life to wind down early. Their energy level is cut low at a very young age. Life presented him big transitions and he just kept making the most of every minute. I am grateful for the opportunity to have been close to him for so long. I just want to thank you for your efforts to memorialize the early pilots that flew the Hudson area.”

08/01/08

From a blog: “Lately, I have become intrigued by the works of another expert aviation historian. If you care about aviation historical events of the 1920's and 1930's but have never visited the website called "dmairfield.org" you must go check it out. This wonderful living/growing historical Mecca is the result of efforts by [your Webmaster]. I will have a lot more to say in the future about [him] and his works. So for now, take a look and you will find a lot of small works by people from all parts of aviation. If they hadn't cared, we might not have had such a rich aviation industry. And if [he] didn't care, many of these stories might have been forgotten. Good work”

07/29/08

“Just thought to drop a note on you - I love the work you've done here. It looks great!”

07/17/08

“Thank you for your caring to advance history....”

07/08/08

“You must be commended on this tremendous piece of work or more appropriately, work of art. You've created an absolutely wonderful site, very well thought out and the links throughout make it probably the best website I've ever had the pleasure to visit. Thank you for your hard work and for sharing this with the rest of us. I came across your site by reading the AOPA online article on Johnny Miller. They should do an article on your work.”

07/03/08

“My compliments for an absolutely great site!”

06/25/08

“Your site is fantastic and a great contribution to aviation historians.”

06/23/08

“Wow, what great photos! Among the many wonderful features of your website is this ability to unearth photos which have never been widely seen before. I am always thrilled by seeing these new gems.”

06/10/08

[from a link from another Web site] “You have to check out this very powerful Web site that was based on the comings-and-goings of flyers through Davis-Monthan from 1925 to 1936. You will not be disappointed!! This is an incredible internet site that you could spend days exploring and still not get enough!!”

05/28/08

“I'm glad I found your web site. It's really cool seeing some of the incredible and historic things that my grandfather and great grandfathers all did. Thanks.”

05/13/08

“Keep up the good work - we need people like you building our history.”

04/25/08

“Another case of a D-M visitor unselfishly sharing their treasures for all to enjoy [regarding Tulsa Municipal Airport]. That is the best thing about your site: that it casts such a wide net allowing so much to be shared. Six degrees of separation for sure!”

04/22/08

You've uncovered some incredibly rare photos, films and information which have increased my knowledge greatly.”

2/1/08

"Thank you for your dedication to aviation history."

1/25/08

12/18/07

“Your website was a delight to find.”

12/12/07

“.... Totally cool!!!”

12/11/07

“I enjoyed your website and the contents make it exciting to look at.”

11/30/07

“For such a massive undertaking your website has nearly zilch misspelling or errors. I know if it was me doing this half the website would contain misspellings and errors. You are to be highly commended for your editorial skills (along with your many other skills).”

11/29/07

“Thanks to the information on your website I know what the subject of this photo is.

11/22/07

[regarding the Lindbergh film]
09/17/07

“Your web site is great. I was thrilled to see our family name as it is linked to this interesting aviation history and to learn of the pilot, C.W. Gilpin, and the Gilpin Airlines.”
09/11/07

“You have created a stunning site which I will visit frequently.”
09/06/07

“Your site is so awesome. Thanks again for posting it.”
08/28/07

“Wow! You have an amazing Web site. Thanks for your truly powerful contribution to the Arizona aviation experience on the Web. Your site is absolute excellence!”
07/30/07

“I continue to marvel at the D-M web site. What a piece of work. A great source for researchers.”
07/26/07

“Thank you for all of your effort on behalf of all the Davis-Monthan pilots!”
07/24/07

“You are the new wave of historical research.”
07/11/07

“I can see that the database is the foundation that makes it all flow ... truly it is like a woven "web" of aviation history. Very nice.”
06/19/07

“[You are] webmaster of the Internet's most in-depth historic aviation site. Your depth of knowledge on this is exceptional. Is your fate to become the Juptner of the information age? ... I have not seen passion or ability like yours for a particular subject in a long time. I see a great gulf between the good old boys of print media and the new multimedia. It's an interesting situation, one in transition. I see you as the next baton carrier, but what lies beyond that, who knows?”
06/19/07

“Your book and website are terrific! ... Kudos on an awesome website.” [regarding the Register book available here: <http://www.cafepress.com/oldairfield.95249802>.]
06/16/07

“[Your website] brings my research to so many places, persons and events. In all this work the Davis-Monthan Airfield Register is a great tool. Can't tell [you] how I admire the website.”
06/13/07

“I think the work that you are doing is very valuable. It is historical information that too often is lost with the passing of those early aviation pioneers that created it.”
05/18/07

MAY 4, 2007 WAS THE WEB SITE'S SECOND ANNIVERSARY

“I'm awestruck at your work on the register My major question is -- how could you possibly have deciphered those names? You are a wonder and what a treasure your research is.”

05/03/07

“What a great site. I don't think I have ever spent so much time reading a site.”

04/07/07

“Congrats on those fantastic video clips on your web site! When you look at those old movies and compare contemporary images from yellowed old photos, it sort of creates a time-disconnect, if that makes sense. The movies make everything seem much more immediate, new and alive. I think your use of multi-media technology is taking this subject area to a whole new level. There's a lot of good content out there, but I don't think it's been put out there quite as successfully as you have with your site.”

04/05/07

“The new films on the D-M website are stunning. What a thrill to see the various aircraft landing and taxiing. It's also great to see the pilots and people on the airfield. These films really bring the D-M Register to life.”

04/04/07

MARCH 2007 TOTAL VISITORS TOPPED 4,000 THIS MONTH.

“It is a great site. It is awesome to see the entries of people like Walter Beech and Clyde Cessna.”

03/23/07

“Your site is definitely unique and I've enjoyed it very much.”

03/20/07

“Using the latest multi-media technology really makes your site come alive!”

03/20/07

“WOW, this is some wonderful and extremely rare COLOR film! Wow ... once again!

And it's so great to see John Miller have such a wonderful place on your website.”

2/28/07

“Fascinating! You have my continuing support and admiration for the way you keep building and enhancing your site. Good work!”

02/28/07

“Your web site has been wonderful for those of us looking for obscure information. Again, I thank you.”

02/24/07

“It always amazes me that such wonderful, original photos keep appearing and it's all thanks to your website. Great stuff and a big 'Thank you' for sharing them.”

02/03/07

“I did enjoy poking around in your web site. I have always had an interest in airplanes even though I'm and old Navy guy.”

01/23/07

“Thanks for all your work on the DM history. You've done a great job and I wish I could master doing web pages as well as you do.”

12/10/06

“Very impressed...wish more people could get resources on line similar to yours. Good information like that helps me put together where people were when and in what.”

12/05/06

“Am constantly astonished by the breadth and depth of your site. The work that's gone into it takes my breath away! It's a 5000-page history online...”

11/29/06

“Words cannot express the regard I have for this website! It was an exceptionally creative idea to build a site around this single (though extensive) document. You have taken a complex concept and created a complex, but extremely easy to use site. The site is straightforward and has become a tremendous resource for researchers. THANK YOU FOR YOUR EFFORTS!!”

11/19/06

“That Cosgrove section is very nice. Beautiful shots of the Cruisers. Absolutely fantastic like nothing I've ever seen before....and I am continually amazed at the depth of the site and the amount of work (and love) that have gone into it! I just turned a pal down in Houston onto it last night, and he was astonished as well.”

11/17/06

“The days of the jack-of-all-trades and simpler times like we celebrate on your web site are largely gone. I'm glad that sites like yours exist as a window to that earlier time, a better time in many ways, that's as alien to the world of today as the Revolutionary War. Kudos to you for all the spade work you've done and are doing to provide an extremely important time capsule--an intellectual "world heritage" site in actuality.”

11/17/06

“Congratulations on a magnificent job on the Hap Russell section. What an amazing collection, and so well portrayed! The pix of the bracelet are truly wonderful. Think you've really captured the essence of it, both historically and romantically. Well done!”

11/15/06

“Amazing is all I can say. I love your style! Thanks from myself and for all who preserve aviation history.”

11/14/06

“Your website is truly the finest!!! The precision and depth...incredible!! Not enough adjectives to describe the dedication, detail and documentation. Just plain awesome. Just stopped by briefly this AM and thus lost a few hours. The Hap Russell happening is great and as always you represent it well. Davis-Monthan is the premier early aviation site on the web. You are a giant gift to American Aviation History. The highly funded institutional museums of the US should take notice of your professional presentation and plethora of information. They could learn a lot. Wishing for the words to better express my admiration and appreciation for your efforts, I'm amazed.”

11/14/06

“The site is OUTSTANDING, you have really gathered a wonderful collection of material....”

11/14/06

“You are my hero and I have loved this site since I first saw it a year ago.”

11/13/06

“You have an outstanding website.”

10/29/06

“Great site - wonderful that you are putting this historical data on the web.”

10/29/06

“I was searching for Travel Air odds & ends when Google took me to your site. Very impressed...wish more people could get resources on line similar to yours.”

10/25/06

“I just stumbled upon your website last night. I like what you have going there. Very cool website!!”

10/24/06

“It's funny, I have all the memories vaguely in my head and for some reason I'm satisfied with that. Then along comes you and I get interested!”

10/18/06

“When do you find the time to do all this? You surely are a human dynamo. And it's wonderful that you are preserving these rare photos and making them available for enthusiasts to view online. And I am sure the folks who are so unselfishly sharing their personal photos are thrilled to have them shared with the world. You truly have done so much for so many people.”

10/11/06

“What a wonderful historical tool your website has become. Without it none of these original photos would ever see the light of day. Your work is invaluable and of such historical importance.”

09/12/06

“Love this site! Look! A real website!”

09/05/06

“Great website.... Thanks for helping keep [the pilots'] memories alive and achievements recorded for posterity.”

09/03/06

AUGUST 2006 WAS THE FIRST MONTH WITH VISITOR TOTAL OVER 3,000

08/21/06

“Those are wonderful photos! Your website sure is a wonderful tool to connect with people who have such photo treasures in their collection.”

08/07/06

“Your site is wonderful and I have really enjoyed reading the log book and the pilot biographies. Such an interesting time and such fascinating pioneers.”

08/01/06

“Thank you for the work you've done - I was absolutely amazed at the information you've collected.”

06/19/06

06/12/06

“Your site is just great. I spent all morning looking at it and I find it very interesting for sure. The history and pictures are of great interest to me.”

05/16/06

“What an incredibly valuable, unique find [the Register] you have! A veritable who's who of the Golden Age of aviation. Something of inestimable value to history buffs. It's the kind of thing the Smithsonian should have, but it's better that you have it instead. That's because ... they wouldn't have nearly the resources or passion to do what you're doing with it. Congratulations on your find, congratulations doubly for having the energy and fire in the belly to take it where you're taking it. You are obviously the steward that fate, or should I say Providence, had in mind!”

05/12/06

“I must say this is the most spectacular website I have ever seen on the subject of aviation of the ‘Golden Age’. I immediately bookmarked it and sent the link to my buddy.... Your site has great info, and extensive links that surprised me with their depth.”

05/10/06

“Congratulations on your one-year anniversary. I can't believe your website is only a year old. It contains such a vast wealth of information that it appears to have taken years to develop.”

05/08/06

“I came upon your site just surfing while I am supposed to be studying.... Needless to say I got caught up in your site and very side tracked. Lots of good stuff!”

03/03/06

“Great web-site for a real air nut like me.”

02/26/06

“Thank you for having made this information available. It is remarkable what you have compiled and I have enjoyed viewing it. It is amazing that one item can sometimes open into like a flower from a bud and I am grateful you have spent the time doing so.”

02/24/06

“I will correlate Pancho's flying logs with the info you have on your website and send you what else I learn. I could not have learned this without the info in your Airport logbook. So this is another wonderful reason to have this on the internet. It truly assists further learning and discovery. So thank you!!!!”

01/22/06

“I wanted to congratulate you on the speed with which you updated your website....

I have been trawling through your website and it is extremely impressive and must have taken a great deal of time in researching.”

“This is just to say how impressed I am by your superb site. I am an aviation history researcher myself and I find it fantastic that you have managed to make the whole airport log available in this way. I have had a quick look only, but realize that this is a goldmine of information in many ways. Normally you have to spend hours and days in an archive to find this sort of information – provided that the log books have been preserved.

Congratulations!”

“I have sat in front of my laptop for the last two hours thinking of every aviator of the era that I know of and seeing if they went to DM. Most have...lots of fun seeing who went there. One thing I did notice was that you could read people's signatures back then - not the scribble you see today. Thanks...”
